

Night - Комбиновани утицај на агломерацију

The map displays the combined impact of various factors on the urban agglomeration of Plovdiv, Bulgaria, at night. The impact is visualized using a color scale from yellow (low impact) to dark red (high impact). The urban core is heavily shaded in dark red, indicating high impact, while surrounding areas are shaded in lighter colors, indicating lower impact. The map includes a grid with letters A-E and numbers 1-5. A legend in the bottom right corner explains the color scale and the data sources used.

Legend:

- 0 - 100 m: Yellow
- 100 - 200 m: Light Orange
- 200 - 300 m: Orange
- 300 - 400 m: Dark Orange
- 400 - 500 m: Red
- 500 - 600 m: Dark Red
- 600 - 700 m: Very Dark Red
- 700 - 800 m: Black

Lnight - Утицај аеродрома на агломерацију

The map displays the Lnight area, showing the impact of the airport on the agglomeration. The map is overlaid with a grid labeled A-E horizontally and 1-5 vertically. A red line outlines the boundary of the agglomeration. A yellow and red shaded area, representing the impact of the airport, is located in the upper central part of the map. The map includes various geographical features such as rivers, roads, and settlements, all labeled in Cyrillic. The title 'Lnight - Утицај аеродрома на агломерацију' is prominently displayed at the top left.
